

Welcome

The Adult Daily Living Center at the Masonic Village at Elizabethtown is a specialized program that reaches out to adults 18 and older with functional, physical, social or cognitive impairments, including, but not limited to, Alzheimer's disease, dementia, Parkinson's disease, stroke and brain injury. The program provides individuals with a safe and supportive environment and access to social and health services. It is a cost-effective alternative for those who need support during the day but still have the ability and prefer to remain living in the comfort of their own home.

The Adult Daily Living Center is dually certified and licensed by the PA State Department of Aging and Department of Public Welfare.
